TECHNICAL SERVICE BULLETIN

Evaluation and Training

Fowler Products Aftermarket Services department can help prevent costly delays and down time of your Fowler / Zalkin equipment by providing a qualified technical service representative for the following:

- Evaluation of the mechanical condition of your equipment.
- Check set up and alignment and make all necessary adjustments.
- Provide a complete parts list of all necessary replacement components.
- Provide a list of recommended spare parts.
- Provide additional training for operator and maintenance personnel.
- Return at a later date to assist with installation of components.

Preferred Service Contract Agreement

Have you considered Fowler Product Company's Preferred Service?

- We offer both Quarterly and Semi annual visits to evaluate your Fowler / Zalkin Capper.

Features:

- Two (2) or Four (4) visits per year.
- Included hours: 16 hours of "regular time" per visit.
- 10% discount on published labor rate for travel time, any additional time beyond the sixteen (16) hours, overtime and any weekend hours necessary.
- As a contract service customer you will be put at the "head of the line" for scheduling of plant visits.

Please respond via e-mail with what you would like to see included in this bulletin or with any service issues that require our support. Our email address is aftermarketservice@fowlerproducts.com . Please include the name and email address of everyone at your company requiring our bulletin.
